

All Businesses... All Industries... All Areas... There is a NED Solution

Where Do You Want Your Company To Be Tomorrow?

What We Do:

Fundamentally we help businesses grow, reduce cost and manage change, by addressing:

- **The key issues, barriers and blockages facing their organisation**
- **How to tackle your requirements effectively**
- **The effects that tackling issues will have on other parts of the organisation**
- **The consequences of not tackling them**

NED professional accredited directors work with you as a part time resource and provide you with their services, when and where you require it.

Alliance Partners:

Armed with the knowledge of where you want to be and the structure of your business, cost effective solutions may require the introduction of a specialist Alliance Partner to complete a specific project or task. We do not take or provide commissions with partners and this ensures our customers get the best deal.

Alliance Partners are specialists in their industry sector. Currently we have over 150 partners throughout the UK that employ over 7000 people comprising of: **Accountants, Solicitors, Banks, Business Angels, Venture Capitalists, Finance Brokers, Marketing, Sales, PR, HR, IT specialists etc** covering the following areas:

- **Cost Reduction**
- **Environmental**
- **Financial**
- **Health and Safety**
- **HR Management**
- **Import/Export**
- **Information Technology**
- **Legal**
- **Marketing**
- **PR and Advertising**
- **Procurement**
- **Production**
- **Project Management**
- **Sales**
- **Strategy**
- **Supply Chain**

Customer Access:

NED uses a fully secure audited cloud computing technology platform [FuseMetrix™](#) supporting all parties with real time information. Seamless integration for customers and partners through web portals provide a complete overview of all ongoing and past operations. Customers have complete financial and decision making control on all actions and activities.

Throughout we will be with you all the way to overview and help implement any change to your business by continuously evaluating your requirements and providing fine tuning to help you reach your goals of:

- **Increased Profits and Turnover**
- **Enhanced Efficiency**
- **Growth in Market Presence**
